

Master of Science Degree Learning Technologies

Off-Campus Master's Degree at IU 12 and IU 13

Harrisburg University of Science and Technology now offers the *Master of Science in Learning Technologies* to educators and school professionals in Central PA at convenient off-campus locations at the Lincoln IU in New Oxford and the Lancaster-Lebanon IU in Lancaster.

The degree introduces you to leading approaches and skills to help you understand and integrate existing and emerging learning technologies into a variety of learning environments. The cohort program provides the opportunity to attend class close to home, collaborate with a network of other local educators, and connect with other learning professionals across Central PA. Off-campus courses are instructor-led and integrate synchronous learning technologies to connect with other instructor-led locations.

Program Features:

- 36-credit Master of Science degree with all courses approved for ACT 48 credit.
- Student-focused courses exploring cutting-edge approaches and contemporary analysis of instructional design and technology integration concepts.
- All activities required for completion of the degree are conveniently available off-campus.
- The same expert instructional staff and courses used in the Harrisburg-based program are available off-campus.
- Personalized attention to your academic goals and easy-to-access support for other campus services.
- The cohort schedule and pace is designed to be responsive to the needs of working adults.
- The program begins **September 1, 2009** with LTMS 500, Instructional Design and Development, offered on **Tuesday** from 6pm - 9pm. Future courses will be offered in 15-week, 7-week and 7-day clinic schedules.
- Students from IU 12 or 13 districts enrolled in an IU-LT cohort are eligible for reduced tuition of \$616/credit hour.
